

BRITISH TROOPS SUFFER DEFEAT

Splendid Victory Won by the Boer Forces at Wilmsrust.

ABOUT 200 KILLED

Only 52 of the Redcoats Survived the Desperate Charge of the Burghers.

FAKE PEACE RUMORS

London, June 17.—The war office has received the following dispatch from Lord Kitchener, dated Pretoria yesterday: "Near Wilmsrust, twenty miles south of Middelburg, Transvaal, 250 Victorian mounted rifles, who had been detached from Beaton's column, were surprised in camp at Stenokoolspruit by a superior force of Boers at 7:30 p. m. on June 12. The enemy crept to within a short range and poured in a deadly fire, killing two officers and sixteen men, and wounding four officers and thirty-eight men, twenty-eight of whom were only slightly wounded. Two officers and fifty men escaped to Beaton's camp. The remainder were taken prisoners, but were afterward released. The enemy captured two pompoms. Full details have not been received." The serious reverse which Lord Kitchener reports is the first accident of the kind that has happened to the Australian contingent, and it is supposed to be due to neglect of proper picketing. Although it is offset by the defeat inflicted upon Dewet, the loss of the guns is regarded as a serious matter which will encourage the Boers to continue the struggle. Whatever may be the truth in regard to the reported peace negotiations in South Africa, the commands in the field are evidently not a party to them. There are reports of vigorous activity on the part of the Boers, especially on the border of the Orange River and Cape colonies.

Warfare in Cape Colony.
It is stated from a British source that the Boers and Cape rebels have continued to increase in numbers and Commandant Kritzinger on June 13 told a farmer in the neighborhood that the movement of commandos southward was only beginning, and that the Boers intend to compel the British to devastate Cape Colony as they have the two republics to the north.

No Fence Negotiations.
More or less fanciful accounts are published on the continent of alleged peace negotiations, but there is nothing in them, and nothing has come of the interview between Mrs. Botha and Mr. Kruger beyond revealing the fact that Kruger will listen to no proposals unless they are accompanied with a guaranty of the independence of the republics.

BIG STRIKE ON CANADIAN PACIFIC

Montreal, June 17.—All trackmen employed by the Canadian Pacific from the Atlantic to the Pacific coast went on a strike this morning.

Cost Northwestern \$3,034.50.
Madison, Wis., June 17.—The Chicago and Northwestern railway company has filed with the secretary of the state a statement of its expenses before the last legislature. The total foots up to \$3,034.50. The items are: M. C. Ring, salary for the session, expenses \$1,204.50; W. T. Fish, salary \$150; expenses \$144; L. D. Bowers, expenses \$18; F. P. Crandon, expenses, \$18.

Will Go to Sheboygan.
Post Commander W. J. McIntyre, E. G. Harlow and J. L. Bear will represent W. H. Sargent Post No. 20, G. A. R. at the state encampment which opens at Sheboygan tomorrow. The state convention of the Woman's Relief Corps will be held in Sheboygan at the same time and the local corps will be represented by Mrs. E. E. O. Kimberley, Mrs. J. N. Dunwiddie and Miss Ella Wills.

Minnesota at the Expo.
Buffalo, June 17.—The Minnesota building at the Pan-American exposition was dedicated today in the presence of the governor and staff of that state. Tomorrow is Minnesota day.

Elias Howe's Assistant Dead.
Bridgeport, Conn., June 17.—William H. Young, the mechanic who worked out and adapted the ideas of Elias Howe, inventor of the sewing machine, died in the poorhouse here of consumption and alcoholism. Young, who was 71 years old and who was well known as "Harry," was a rich man twenty-five years ago.

Short in Postal Accounts.
Evansville, Ind., June 17.—Postmaster W. L. Boyce of Mount Vernon, Ind., was brought here by Postoffice Inspector Kyle of Washington. It is alleged that Boyce is short in his accounts from \$500 to \$1,000.

E. FRANCIS MORAN IN LEGAL TROUBLE

Poet of the Raging Rock and His Wife Appear in the Municipal Court Today.

E. Francis Moran, the long-haired and bushy whiskered poet of the raging Rock, and his wife Celia are again in trouble with the law. They were both before the municipal court this morning on the charge of doing malicious injury to property. They pleaded not guilty and their cases were set for June 26 at 10 a. m.

It seems that a receiver for the property of Thomas Moran, the father of E. Francis, has been appointed and that he leased a portion of the farm to pasture them.

E. Francis claims an interest in the property and disputes the right of Mr. Kennedy to put the cattle in to the pasture. He was not made a party to the action appointing a receiver, so turned Kennedy's cattle out of the pasture. His wife helped him turn the cattle loose so was arrested with him for doing malicious injury. Charles E. Pierce appeared for the state and Edward E. Ryan for the defendants.

QUAY BELIEVES IN THIRD TERM

He is the Only Republican of Prominence Who Opposes McKinley's Course.

Washington, June 17.—Senator Matthew S. Quay of Pennsylvania is the only republican of prominence who has thus far told the president that he made a mistake in writing his letter declining to be a candidate for a third term. Senator Quay, like Representative Grosvenor, has no patience with the sentimental opposition to a president holding a third term. He was one of 308 delegates who voted from the first to the last ballot for Grant in the Chicago convention in 1880. He believed then and believes now that it would be eminently proper to nominate a good man for a third term rather than experiment with new and untried material, especially at the time when an experienced man at the wheel is deemed necessary.

"I do not believe," says Colonel Quay, "that any danger could possibly come to a party taking upon itself the responsibility of nominating a man for a third term. All talk of dire consequences to a party because of a violation of an unwritten law of the land concerning this subject is, in my judgment, nonsense."

Colonel Quay said all this, and much more, to President McKinley, and he appears to be only republican of prominence who feels that the president has made a blunder.

WILL MAKE WAR ON RECIPROCITY

Senator Aldrich Heads a Crusade Against Pending Treaties—Notifies the President.

Washington, June 17.—Senator Nelson A. Aldrich, chairman of the committee on finance, served notice on President McKinley today that the republican organization of congress is opposed to the principle of reciprocity and will defeat any attempt the president and his friends may make to secure ratification of pending or contemplated reciprocity treaties with foreign powers. Senator Aldrich also informed the president that the republicans of the middle and New England states are practically a unit in favor of continuing the Dingley law and that they will effectively resist any attempt that may be made to disturb existing conditions.

Senator Aldrich came to Washington for the express purpose of serving notice upon the president that his course in advocating reciprocity is distasteful to the republicans of the east. His visit was hastened by the recent action of the Manufacturers' association in their annual convention at Detroit passing a resolution declaring in favor of reciprocity and demanding radical reforms of the Dingley tariff.

COMMENCEMENT AT STATE UNIVERSITY

Madison, Wis., June 17.—The University and the state was the subject of the baccalaureate address by Acting President E. A. Birge yesterday afternoon, being the first formal feature in the commencement exercises which mark the fiftieth anniversary of the Wisconsin University. Pastors of three churches participated in the exercises, Rev. S. A. Gilmore of the Unitarian church giving the invocation, Rev. P. B. Knox of St. Patrick's Catholic Church reading the scripture lesson, Rev. B. B. Bigler of Christ Presbyterian Church offering prayer, which the venerable Dr. J. D. Butler, one of the early professors at the university, pronounced the benediction.

WARM WELCOME FOR VETERANS; SHEBOYGAN GAILY DECORATED

Annual Encampment of the Wisconsin G. A. R. Will Convene Tomorrow—Many Notables Will Be Present—Hot Fight on Commandership.

Sheboygan, Wis., June 17.—The city has been gaily decorated for the annual encampment of the Wisconsin G. A. R., which convenes tomorrow morning, June 18.

Governor La Follette and Senators Spooner and Quarles are expected to reach the city by noon. General Bragg has written that he hopes to be here. Former Governor Hoard, General G. E. Bryant, former Governor George W. Peck and Edward Scofield are on the program for the big camp fire on Wednesday night.

Colonel Copeland of La Crosse and A. H. De Groff of Buffalo county have secured headquarters at the Foeste hotel and a lively fight is on for the commandership. Mrs. Irene Jones, department president of the ladies of the G. A. R., will arrive from Milwaukee, on Monday morning. She will have quarters at the Foeste hotel although the headquarters of the department will be at the Knights of Pythias lodge rooms. The Woman's Relief Corps expect a lively contest for the state presidency and their meetings will be held in the First Church of Christ, Scientist. Over 5,000 visitors are expected. The executive committee has planned for a most royal entertainment of the visitors, and the city is in holiday attire in expectancy. The big parade is announced for Wednesday afternoon, when all the leading societies of the city will take

WISCONSIN IS A SPEEDY VESSEL

MAKES A RECORD OF SPEED BETTER THAN 16 KNOTS.

Will Excel the Illinois—Big Warship Gives Promise of Being Fastest Vessel of Her Class in the United States Navy—Guns Stand Thorough Test.

San Francisco, June 17.—The battleship Wisconsin steamed into port this morning after a forty-eight hour trial in the Santa Barbara Channel, during which it was demonstrated that the Illinois will have to look sharp if she would retain the honor of being the swiftest cruiser of her class in the United States navy.

According to members of the trial board and the experts in naval construction who were aboard the Wisconsin when she was put through her final paces before being accepted by the government, the battleship will show a speed of more than eighteen knots an hour if put under forced draft. This speed mark is higher than the one established by the Illinois.

Under Natural Draft.
The terms of the contract between the Union Iron Works, the builders of the Wisconsin and the government, provided that the final trial run of the Wisconsin should be made under natural draft and should last forty-eight hours. Any defects in the machinery would send the ship back to the docks to be brought up to the specifications.

The Wisconsin left this port last Friday morning, and during two days had fair sailing in an open sea. With full head of steam and with natural draft the official record for two hours was 16.45 knots per hour. For the forty-eight hours the average was 15.3 knots an hour.

Fast Two Hours Run.
Six months ago the Wisconsin was turned over to the government by the contractors. At that time a forced draft trial was made and the new greyhound of the navy surprised her builders by showing a speed of 17.17 knots an hour. This test was made at a time when the ship's engines were too new to show their best work.

Last Wednesday while being brought to this port from Puget Sound, the officers in charge gave the Wisconsin her head from Point Arena to Point Reyes and had the satisfaction of seeing her put 37.2 knots behind her in two hours, or 18.6 knots an hour.

MRS. MCKINLEY IS IMPROVING FAST

Washington, June 17.—Mrs. McKinley has improved so much within the last few days that unless a change for the worse takes place in her condition for the worse there will be no more consultations by physicians. She passed a very good night and today is very much brighter than she has been at any time since she suffered a relapse. Preparations are already begun for her removal to Canton.

TO EXTEND WORK IN WIDER FIELD

Y. M. C. A. Influences to Cover Whole Earth.

Farewell Day of the Jubilee Convention at Boston—Foreign Delegates from Fifteen Nations Speak in Their Native Tongue—Great Revival Services.

Boston, Mass., June 17.—Fifteen of the foreign representatives, each from a country of the old world, joined hands last night at the Mechanics' Building with the presiding officer of the Y. M. C. A. jubilee convention, Judge Selden B. Spencer and sang "Blest Be the Tie That Binds." It was at the farewell meeting of the greatest international Y. M. C. A. convention ever held and every seat in the immense auditorium was occupied.

Just before the convention adjourned each of the fifteen foreign delegates spoke to the convention in their native tongue on the text which in English means "One is our master, even Christ and we are brethren." It was a dramatic close to what will long be known as a memorable convention.

By common consent the jubilee is voted to be the most successful one ever held in the history of the association. It had four times as many delegates as any preceding convention, and its international character has marked the wide scope of the work. Never have so many prominent laymen been present at one of its sessions, and never have such distinguished scholars, public men and clergymen honored a convention with their presence.

Plea for Extension Work.
Then John R. Mott of New York, international secretary of college work made an international plea for funds.

"There are 200 cities in the world," said he, "with a population of 100,000 or over without a Y. M. C. A., and we should send out not less than 100 secretaries to this field. We should send men to Mexico, the Philippines, to a new regenerated China, to Japan, to India and the Levant. It is our aim to raise up in these countries native teachers and leaders who will then convert their own people. Our great needs are money and men."

Success at Big Mass Meeting.
In the afternoon one of the largest mass-meetings ever held for men in Boston was conducted in Mechanics' Building. There were at least 5,000 men in attendance. The exercises were in the hands of Fred B. Smith of Chicago, who made an earnest appeal for those in the audience who were not Christians to lead an upright life. As a result of his exhortation about forty men came forward and signified their desire to lead a better life. Mr. Smith told the audience that hardly ever in his experience had he seen so many old men request prayers as in that service.

Breaks the Record.
New York, June 17.—It is estimated that July disbursements on account of dividends and interest on government bonds will about one hundred and fifty million breaking the record of twenty-five million.

CATLIN TRIED THE FAITH CURE

An Ex-Assemblyman of West Superior Dies in Minneapolis of Blood Poisoning.

West Superior, June 17.—Word has been received here that former Assemblyman C. L. Catlin if this city had died at Minneapolis from blood poisoning, caused by the chafing of a heavy boot. He had been at Minneapolis for about a week consulting Christian Scientists there.

While Mr. Catlin was working in his garden lately, coloring matter from his stocking entered a wound made by the boot. The trouble grew steadily worse until he decided to go to Minneapolis to consult Christian Scientists, to which sect Mr. Catlin belonged. Although so advised, he would have no physician.

Funeral services were held today under the auspices of the Masons. Other secret societies and lawyers of the city attended in a body.

Do not miss the Eastern Star picnic. Round trip \$1.25. Long Lake and return, Tuesday, June 18.

ANNUAL BANQUET OF DELTA GAMMA

Several Janesville People Interested in the Annual University Event at Madison.

At the annual banquet of the Delta Gamma of the University of Wisconsin, held in the parlors of the Congregational church at Madison Saturday evening, this city was well represented. Miss Harriet Bostwick, a member of this year's graduating class and distinguished for the high honors which she has won during the university course and for her election by the faculty to membership in the Phi Beta Kappa, the honorary fraternity, in which membership is only attained by brilliant scholarship, was the honored guest of the evening.

Mrs. E. F. Woods, who was one of the charter members of the Delta Gamma at the time of its organization in 1881, was also one of the honored guests and she and Miss Bostwick were called upon for impromptu remarks after the formal program of toasts was concluded. Miss Margaret Jackman, who is just completing her freshman year at the university, won much praise for a clever response to one of the toasts given in her clever and original style.

Misses Marcia Jackman and Anna Valentine, graduates in last year's class, were also at the banquet and Mrs. Eva Bostwick Mayhew, formerly of this city and a cousin of Miss Harriet Bostwick, was one of the participants. The guests numbered about fifty ladies, present students at the university and former graduates being represented in about equal numbers.

MOLINEAUX CASE UP ON AN APPEAL

Buffalo, June 17.—Arguments begun today before the court of appeals is the famous case of Roland Molineaux now in Sing Sing under death sentence for the murder of Mrs. Kate Adams in New York City. If the attorneys for the prisoner can prove that a point of law has been misrused or that perjury has been committed the prisoner may be granted a new trial.

LORD RUSSELL IS UP FOR BIGAMY

London, June 17.—Lord Russell was arrested today for bigamy alleged to have been committed in America last year. Russell secured an American divorce and married a woman in Nevada.

Anderson Is Golf Champion

Hamilton, Mass., June 17.—In the play-off for the United States golf championship this morning Willie Anderson of Pittsfield, Mass., won against Alex. Smith of Scotland by one stroke.

SOIL MAP PRINTED IN COLORS; GOVERNMENT WILL AID FARMERS

Washington, D. C., June 17.—The agricultural department is about to publish a soil map that will enable the farmer, whenever he is located, to determine just what crops will bring him the largest returns in money. Printed in colors it will convey information in the clearest and most easily comprehended manner imaginable. The map is to cover the whole of the United States, and will be on such a scale that every ten-acre patch will be represented by one eighth of an inch square. But each farmer will be able to procure a chart of his own neighborhood on a larger scale, so that he can arrange his planting in accordance with the suggestions that it conveys. The work is done by townships to start with, and these are put together to make counties, which are finally assembled to form complete maps of states. Hitherto the business of farming has been to some extent guesswork; the agriculturist formed a surmise as to what crops were the best for him to try, and did his planting accordingly. Henceforth it will be quite different. He will study the government map, and from it will obtain advice, based on the highest scientific knowledge, as to what will be best for him to try to grow. Then he will go ahead with a reasonable certainty of satisfactory results.

WOODMEN MOURN FOR THEIR DEAD

Special Memorial Day Program at the Presbyterian Church.

A SOLEMN SERVICE

Rev. J. T. Henderson Speaks on Subject, "A Study of Brotherhood."

AT BAPTIST CHURCH

In honor of the fact that the Modern Woodmen of America observe the third Sunday of June as a special memorial day for the remembrance of their dead, the members of Florence camp, No. 366 Modern Woodmen of America and of its auxiliary organization, Crystal camp No. 132, Royal Neighbors of America were special guests at the Presbyterian church at the morning service yesterday. Both lodges were well represented and the large delegations occupied seats in the body of the church which had been reserved for the guests of honor.

Splendid Floral Decorations.
The floral decorations in the church were especially beautiful only pink and white syringas being used. The opening services also were impressive and included a finely rendered solo by Robert B. Kanouse.

Rev. J. T. Henderson chose for his subject "A Study of Brotherhood," both subject and application being peculiarly appropriate to the occasion. The sermon was a masterly one and was considered by members of Rev. Henderson's congregation as one of the best that he has ever preached. He took for his text: Genesis 1: 9-10, "And the Lord said unto Cain, where is Abel, thy brother? And he said I know not. Am I my brother's keeper? And he said, What hast thou done? The voice of thy brother's blood crieth unto me from the ground."

Brotherhood of Man.
This familiar and ancient story of Cain and Abel was made the foundation for the great lesson of man's brotherhood to man which has come down through all the ages. Rev. Henderson held that they are two great principals in life, man's obedience in his duty to God and man's obedience in his duty to his fellowmen, each dependent upon the other. When man makes his progress it is along these two lines. When he falls behind, it is because he has failed in one of the two. The murder of Abel by Cain is known as the second fall and was a sin against the relation of man to man but it had its root in that first great fall in the garden of Eden which was man's failure in his obedience to God. This is always true and the reason for all the jealousy, envy, hatredfulness and murder is to be found in the first great cause disobedience to God. Failure of fellowship of man to man lies always in the lack of fellowship of man to God. Cain was false to his brother because he was first false to God.

Not Expression But Deeds.
In the study of brotherhood it will be found that man's manifestation of it is found not in expression but in deeds. Man has a body to be clothed, a mind to be developed and a spirit to be uplifted and purified. Man's service to man can be in response to any one of these needs. A man engaged in any work that serves only the body of his fellowman is a benefactor. A corporation that makes it possible for the laboring man with the smallest wages to own his own home and educate his children is serving mankind nobly and any organization having a kindred motive finding expression in a brotherly service to humanity is a public benefactor and is worthy of honor and support. Honor should also be paid the great men who serve the mind. The people one stroke.

CLOSE OF THE DRAMATIC SEASON; BEST ENJOYED HERE IN YEARS

No City in Wisconsin Outside of Milwaukee Can Boast of Such a Strong List of Attractions as Have Visited The Bower City.

The dramatic season, which formally closed at the Myers Grand last Friday evening, has been, without exception, the finest ever enjoyed by local theater goers. Manager Myers has always maintained a reputation for securing high grade attractions and in his desire to give the patrons of the local theater the best that is to be secured he has often sacrificed his own interests and the best interests of the house. Never before, however, has he been so successful in securing first-class attractions and productions such as appear at the best metropolitan theaters.

Probably no city in Wisconsin, outside of Milwaukee, can boast of such a strong list of attractions as has visited this city during the past season. Few people realize this fact and few give Manager Myers the full meed of credit which is his due. Sometimes, naturally, as in the case of the "Evil Eye" he gets taken in by a production but the error is generally excusable. In that case, for instance, he relied on the excellence of a former production and the personal guarantee of a reputable manager who had never before broken faith with him.

Naturally also no manager can be responsible for personal tastes and it is nothing against him or a production because a man with farce comedy tastes sees no beauty in a Shakespearean production or a quiet comedy drama. The real lover of the histrionic art enjoys it wherever real merit and artistic work are found, whether in a vaudeville sketch, a comic opera, a spectacular production or in the dramatic presentation of stories from real life.

During the past season all tastes have been catered to. The season opened auspiciously on the 25th of last August with Whitney's elaborate production of "Quo Vadis," and it closed effectively with Clyde Fitch's beautiful historical play of the Revolution, "Nathan Hale," last Friday evening. These two high grade attractions represent the general standard which has been maintained during the season, a fact which can be best appreciated by a brief review of some of the leading attractions which have appeared at the Myers Grand.

Among the most pretentious were Litt's "Sporting Life," "The Christian," "Way Down East," "Arizona," Frohman's "Sherlock Holmes," Otis Skinner in "Prince Otto," Anna Held in "Papa's Wife," Eugene Blair in "Carmen," "The Belle of New York," "Way Down East" and "The Burgomaster" played two successful engagements at the local theater during the season.

SOME CRITICISM OF PENSION PLAN

St. Paul Road System Does Not Provide for Men Who Quit or Are Discharged.

The employees of the Milwaukee road in this city are interested in the discussion of the proposed pension plan of the company. Some of the men like it and say they would like to see it go through, but others—and more particularly the older men—do not like it as they understand it, and say they do not see how the officers of the road could endorse the plan as it is not in line with the usual generous plans and actions of Mr. Earling and his assistants.

That part of the plan pertaining to pensioning and even that part pertaining to an insurance feature the paying in by employees and their drawing sick and disability claims, but what they object to is the fact that so far as understood, a man may be with the company thirty years, paying into the fund all this time, and then by reason of his securing another place to his betterment, or for being discharged for cause, he would lose all that he has put in during those thirty years.

This the men do not think is fair and they really expect the officials to provide some means by which a part of the deposits of the men would be paid back, probably the total deposits, less the cost of the insurance and a reasonable interest, so that the man would be charged only with his cost and have something back to show for his year's work. There are so many ways by which a man may be dropped for other than physical disabilities, changes of administration beyond the terms of the present officers, depressions in business requiring a reduction of expenses, which means, of course, the consolidations going on and many other causes that might throw a man out without any blame attachable to him.

The older men say that a similar plan was proposed on this road years ago, and abandoned for just this reason, and that it was drawn up by the very man who is credited with drawing up this plan, John A. Hinsey. The Reading road planned just such a system thirty years ago, but it failed, as the men refused to pay into it.

The pension plans for the road have been under discussion for years, the men having many long confer-

ences with the officials on the subject, and the older men who went through the periods and participated in the discussions believe that the road will bring forward a plan for pensioning that will be equitable and fair and as generous as any other road has introduced, for they believe their officials to be as generous and they have as great faith in them as any employees have in their chiefs.

Blind Preacher Defends Teachers. Editor, Milwaukee Sentinel.—I have been grieved and pained by the recent articles sent to you by some of my old and honored schoolmates, graduates of the Wisconsin School for the Blind. I went out from that school in 1873. I then took a special course of study at Evanston, for which course I found myself well prepared by my training at Janesville. Since graduating from Evanston I have maintained myself by preaching, lecturing and writing, and I am in common with many of my blind schoolmates, including the gentleman who wrote the articles in question, to show that the earlier pupils were as well prepared for self-support and for a place in society as the recent graduates.

It also gives an erroneous impression to imply that the former superintendents, crammed the pupils with Latin and Greek, for Greek has never been taught in the school; and Latin was never taught except as private instruction to a few of us who desired it. I have been reluctant to write this letter lest I should seem to under-value Mr. Bliss, the present superintendent, for I admire him as a man and applauded his administration, but I would do violence to my best feelings, and be unjust to my greatest benefactors if I did not vindicate my wise and faithful teachers. REV. GEORGE SCHORB. Evanston, Ill., June 12.

STORIES OF WOMEN.

There are more ways of crushing a master than one. The average woman silently endures the cowardly creature's attentions, others hurry to the nearest store, and a few are sufficiently courageous to call an officer and give the pest into custody. Rarest of all is the cool headed female who turns ridicule on her tormentor and one of these had an adventure in a street car last week. She was trying to button a tight glove when a well dressed coward who sat near leaned over and said, insinuatingly: "Let me help you. I am very handy at that sort of thing." The young woman was at first inclined to freeze him with a steady glare, but changed her mind and with a slight blush extended her hand to the fellow, the other passenger looking on with much interest. The thing in man's shape fastened the glove and the hand was withdrawn. The girl dipped a couple of taper fingers into her purse and in the most matter-of-fact way took out a 10-cent piece, which she offered to the masquerade with a smiling "Thank you." The creature flushed up and began a stammering protest, on which the girl put the dime back and extracting a half dollar said: "That surely ought to be enough for your trouble." That was too much for the masquerade, who hurried from the car. The girl settled herself back in her seat with a satisfied look, and the other passengers had difficulty in restraining a cheer.

The Christian Endeavor society of a church in Providence held its semi-annual meeting recently, one of the most interesting features being a debate between two young women members as to whether women were fitted to do men's work. The debate was declared to be "a draw," as they say in the prize ring, so the president suggested that the girls continue the discussion in a practical way by sawing a log each. Two able bodied logs were soon found, as were saws and bucks. The two young women looked dismayed. The humor of the situation dawned on them and they smiled. They looked at the sawbucks and at the saws and at the sticks of wood and found fault with the proportions. And it was a nice, round log too, smooth as to bark and about the thickness of a small fence post, perhaps a trifle less. The two young women declined, but the others urged them on, and then one of them thought what a good opportunity it would be to prove what she had so earnestly advocated some months ago—that a woman was as good as a man any old time. One of them stumped the other to do it and that settled it all. Some of the young men showed them how to place the log on the buck and how to steady it by planting a knee on it. They took positions and when the word was given started at it. One of the saws flew up and down in short, jerky strokes until the teeth stuck at intervals in the log, while the buck danced over the floor. The other young woman saved like a veteran and had the advantage of weight and knee position. She finished her log far ahead of her rival, thus furnishing at least some proof that she was right in contending in favor of her sex.

Claudia and Rebecca Browne are two Brooklyn girls, who for several seasons have been known at bathing and bicycle resorts as "the heavenly twins." Their costumes for wheel and surf are generally striking to the bizarre point. The sisters always wear costumes exactly alike, whether on the wheel or in the surf, and as their raiment is invariably of pronounced type they never fail to attract the limit of attention. Their latest rig was as follows: Short raglan overcoat fastened with white satin bows instead of buttons; plaid bloomers of red, green and blue, tight fitting; golf stockings to match; tan shoes tied with ribbons of white satin and a buckle of quartz; sailor hat with crimson and white band and quartz buckle; red cravat with horseshoe pin and boutonniere of daisies. Miss Claudia, arrayed as above, was riding through Stillwell avenue, in Homestead when she heard some remarks anent her costume. Among others was this, in a man's voice: "If she comes back in that costume I'll use my air rifle and shoot her." To show that she was not to be frightened by such a threat she came back there, and sure enough, someone fired two shots at her. Miss Claudia proceeded to Coney Island, where she complained to the police. An officer was sent with a warning to Stillwell avenue, and an hour later the heavenly twins rode through that thoroughfare triumphant and unmolested.

Carpet Selling..

All carpets for miles around must have worn out about the same time, judging from the number we have sold, and the demand is not yet over by any means. We bought an immense lot of carpets early in the year and thought we would have enough to last through the spring season. Since then we have bought many pieces, in fact have been receiving shipments several times each week since May 1st. THE RESULT IS, our stock is in excellent condition now, having a splendid assortment of the very newest patterns in the several grades that we handle. If you need carpets, here's the place to come for them. How about carpets for the new house?

RUG BUSINESS

Largest and most complete line of RUGS we have ever shown. Over 1,000 rugs to show you. Shapes and sizes to fit in anywhere. Ingrain and Brussels, Ingrain Art Squares, 100 of them. Smyrna and Velvet Rugs in extra large sizes for rooms in place of a carpet. 50 styles; also Moquette and Japanese, large variety. Oriental Rugs, on these we positively save one money. We sell them at a much smaller margin of profit than the large city houses, to which many people can attest. How many dollars extra is it worth to you for the satisfaction of buying in Chicago? It is not for us to say where one shall buy. All we ask is an opportunity to substantiate our claims. Before buying call and be enlightened regarding our stock of ORIENTAL RUGS.

Mattings.

Have you a summer cottage to furnish? Are there some up-stairs rooms that need a new floor covering? So many rooms for which matting is just the thing. 200 rolls of matting to show, plain and fancy, all matting and cotton warps. Prices within easy reach.

A new lot of them just received from New York. We have all the materials necessary for making the "fad" purses. Have had some trouble keeping the "tops" in stock, ours are so desirable. Plenty now.

Folding Jap. Fans

From Vantine & Co., New York, the largest importers in America of Oriental Novelties. We bought about 700 Japanese folding paper fans comprising some beautiful creations in light and dark fans, prices start at 3c and end at 40c. The decorations on them are very late and distinctly Japanese. Lovely fans at 10c, 15c, 25c, and so well made.

Turkish Towels

Headquarters for Turkish bath towels. We emphasize a lot that we offer at 12 1-2c. Not every day can such a bargain be found, being worth about double what we ask. Have great values in Turkish towels at 25c. After the bath a good Turkish towel's the thing.

UNIQUE PLAN OF HOUSE BUILDING

Outside Walls of Planking with an Air Space—No Studding, Lathing or Plastering.

A house in process of erection at the southeast corner of Portland avenue and Thirty-fourth street, is the mecca of house seekers and house builders these days, says the Minneapolis Journal. On Sundays sometimes as many as 200 from town and St. Paul visit the place, and on ordinary days, an average of thirty are drawn by curiosity to visit the building. The builder of this house claims for its style construction used in its erection, the following advantages: Saving of 40 per cent. in the original cost, saving of 90 per cent. in repairs, saving labor, saving of 50 per cent. in fuel, and absolute proof against rats, mice and vermin and great rigidity or firmness of the floors.

This particular dwelling, which is being erected for Fred Bintliff, is after a patent obtained March 12, 1901; F. C. Penney, the well known builder and real estate man in Minneapolis for the last thirty-three years, who has planned seventeen additions.

The patent calls for a plank construction with a slip joint window and door frames and an entire absence of studding, lathing and plastering. Its general idea is an improvement in wooden building construction and has been evolved from years of study.

Last year a house and barn were put up for John Babcock at 127 Xerxes avenue, near Keegan's lake, made of plank as sort of a feeder. The plan met with a good deal of opposition from others as being insecure and liable to fall, but a building inspector is said to have reported that if all houses were as strong it would be well. Now the foundations are being prepared for twelve of these houses in St. Paul and twenty-five in Minneapolis, and inquiries have come in from seventeen different states concerning the new patent. Mr. Penney has stopped taking contracts for this year because he wants to form companies in other states for pushing the plan. He is personally superintending the Bintliff house but generally sells the royalties instead of putting them up himself. The lumber can be cut out in two days and almost any ordinary carpenter can do the rest.

Between the outside wall of planking and the inside is a two-inch air space. The joints are not broken but correspond exactly so that the load will be even. As a result of this arrangement and the fact that the walls are not nailed to studding, but held with iron staples, whether the material shrinks or swells the joints become tighter and the building more secure. The planking is beaded at the joint and in the middle which makes a very fine appearance and avoids the cracking and drawing of joints seen in clapboard siding. The corners in this house are of heavy colonial style and a large colonial porch is built in front.

The air space affords ventilation through the attic and skylight. Each room, unfinished, looks like an exaggerated box. Government experts have made tests of boxes made in this way and pronounce them absolutely frost proof. This is further evidenced by the fact that the Babcock house of eight rooms was thoroughly heated last winter by means of coal stove and drum with only two tons of coal.

The ceilings may be of metal or adamant as preferred, but if plaster is used there is little danger of its falling from jar of the floor above as in the ordinary balloon frame. The windows are single sashes which push up the entire length into the air space between the plank walls, resulting in a very soft, fine finish. The roof is similar in construction to that of other buildings except that there is a greater eave projection and a pagoda-like curve in this one case.

THE DEATH RECORD.

Police Don Shirtwaist Uniform.

Camden, N. J., June 17.—The police appeared today in shirtwaists and straw helmets. The waists are of blue flannel, with white buttons and white service stripes. Their helmets are of straw and of the same shape as their cloth ones. The men came in for considerable "guying" at first, but look cool and neat in spite of the oddity of their attire.

In Pursuit of Edwards.

Shreveport, La., June 17.—The search for Prince Edwards, the murderer of John Gray Foster, continues. There seems to be no doubt that the negro, being pursued in northeast Texas, is the man wanted, but it is difficult to follow his trail.

Information comes from Greenwood, a small town on the Texas & Pacific railroad, about 15 miles from Shreveport, that a negro answering the description of Prince Edwards, slayer of John Gray Foster, has been seen there. The negro, it is said, offered two negroes \$10 each to pilot him through the country and admitted that he is wanted for the murder of Foster. When last seen he was going into a thicket near the Herne place, 8 miles from Greenwood. This information comes from James Bryson, who is thoroughly reliable and well known in these parts. Acting upon the information, Sheriff Ward organized a posse and departed for the scene.

Lynch Mob Is Foiled.

Evansville, Ind., June 17.—William Winn, of Mount Vernon, Ind., the slayer of Charles Curry, was brought here and lodged in jail for safe keeping. A mob was forming to storm the Mount Vernon jail and the sheriff hurriedly brought the prisoner here.

New Enterprise in Pierre, S. D.

Pierre, S. D., June 17.—Articles of incorporation have been filed here for the American Motive Power Company with a capital of \$15,000,000. The incorporators are John Martyn Seabec, Lucius C. Varney and Oscar Nelson.

Federal Prisoner Is Free.

La Porte, Ind., June 17.—Randall Adams, a federal prisoner in the state prison at Michigan City, who was convicted in 1892 for the murder of an officer in Indian territory and sentenced to a life term, has been released. President McKinley having commuted the sentence.

Englishman Buys Trotting Mare.

Richmond, Ind., June 17.—Louis Wims of Brighton, England, has bought the Indiana mare Sally Spencer, 2:21. She was bred by John K. Gowdy, the consul general to Paris. The price was private.

A GREAT COAL MONOPOLY.

It Is Being Formed Now in Five States—With Rival Standard Oil.

Chicago, June 17.—The Indiana coal trust, with a capital stock of \$15,000,000, is now an assured fact. Thomas C. Keller of the T. C. Keller Coal Co., the only operator in Chicago owning mines in Indiana, who held out, has signed the agreement to give an option on his property. Nothing now lies in the way of the organizers, and within seventy days the trust will be controlling the entire coal output in Indiana. Immediately after the Indiana trust has been incorporated, the Chicago men who are capitalizing it will organize the Illinois coal mines in a similar combination. Ohio and Pennsylvania are already organized and West Virginia will next be turned to. The final deal will result in the formation of a gigantic monopoly that will control the entire coal output of the five states. This trust will approach in point of capital, strength and money making the Standard Oil company. John S. Bays, of Sullivan, Ind., who is organizing the trust in his state, says that the public need not become frightened over its formation. The price, if raised at all, will advance not more than twenty-five cents on the ton, for the stockholders will secure their profits from the cut in expenses attendant upon combining all the coal interests. "The first year," said Mr. Bays, "will result in a saving of \$350,000 of 5 per cent interest on \$7,000,000. This saving will be made in salaries. There are perhaps sixty presidents of coal companies in Indiana, each drawing salaries ranging from \$2,500 to \$6,000 a year. The trust will have only one president."

MANY INJURED IN TORNADO.

Houses Picked Up and Twisted Into Fragments by Storm.

Huron, S. D., June 17.—Of eleven persons injured in the tornado thirty miles southeast of here yesterday three will die. Several buildings were demolished and fields of grain were swept clear. The tornado broke with tremendous force near the residence of John McCormack, demolished his house, stock sheds and farm machinery. The house, a two-story structure, was carried several rods and then twisted into bits. McCormack, his wife and three children were hurled against a barb wire fence. Three of the five injured will die. All were found by neighbors two hours after the tornado had passed. They were unconscious and covered with mud. A schoolhouse a mile and a half from the McCormack home was carried half a mile, then broken into fragments. Five miles from McCormack's the storm picked up the Gardner residence, destroying it, and seriously injuring Mrs. Gardner.

Indicted for Conspiracy.

Grand Rapids, Mich., June 17.—The grand jury which has been investigating the scandals growing out of the attempt to have the city council let a contract for supplying Grand Rapids with pure water has returned five indictments on the charges of conspiracy. The men indicted are: Lant R. Salisbury, city attorney; Thomas F. McGarry, lawyer and promoter; Henry A. Taylor, capitalist, New York; Wilson V. McLeod, ex-manager of the Grand Rapids clearing house; Gerritt Albers, a young attorney.

Albers, Salisbury and McLeod were brought before the court at once on a bench warrant and subsequently released on bail of \$5,000 each. McGarry has not been found.

Accuse Young Bride of Fraud.

Cincinnati, O., June 17.—Mrs. Corina Campbell, an eighteen-year-old bride, will be taken into custody by the state as soon as the government punishes her for various crimes. She is in Columbus, O., awaiting a hearing. United States secret service men arrested her at Bergholz, O. The young woman is charged with raising many money orders. Among the number was an order for \$1.50 on the Chicago Seed company, which was raised to \$100.05 and sent to the Bullock & Ward company, Chicago, as a payment on furniture. She is further accused of raising a draft originally calling for \$24 to \$24,000 and depositing it in the Canton bank for collection. Her young husband knew nothing of her wrong doings.

AN ABSOLUTE FACT THAT GREGG'S COFFEES ARE THE BEST

Pan-American Exposition Company, D. S. Morgan Bldg., Buffalo, N. Y.

C. D. Gregg Tea & Coffee Co., Chicago and St. Louis.

Buffalo, N. Y., Jan. 10, 1901.

I enclose you contract for the supply of coffee for the Bailey Catering Company, at the Pan-American Exposition, to be held in Buffalo during the coming summer. In the selection of your coffee, in competition with samples submitted by a number of the largest Importers and Roasters in the country, I have been governed entirely by the quality of the same. My experience with the coffee supplied to me during the past year or so by your house has been so uniformly satisfactory that I feel that I could do no better than to complete this arrangement with you. The amount of coffee which this involves will probably amount to as much or more than has ever been supplied to one consumer in the same length of time, and I congratulate you upon your enterprise in having secured this contract.

Fair tonight and Tuesday.

WHAT DOES IT MEAN?

The Sentinel bespeaks the indulgence of the public for the gentlemen composing the state board of control until they can be heard in their own defense. It is not fair to judge them hastily. Possibly they can so explain their course that it will appear right.

It is true that they seem to have gone back upon a reform of which they were at once very proud, and that their actions look inconsistent, but perhaps they can explain it all. The old adage says that appearances are very deceptive, and it may be so in this case. But the gentlemen can hardly blame the people for being slightly skeptical.

The public is given to understand that Superintendent Bliss of the state school for the blind is to be dropped because he is not "trained." If that statement is not accepted the inevitable conclusion is that he is to be retired because he is persona non grata with the governor, which would mean that the state institutions were to be dragged back again into politics.

If the statement is accepted the public has a right to assume that "trained" men are to be chosen for all of the state institutions in the future of a reform. There would seem to be no other conclusion for the people had no other course for the board. But the board appoints a newspaper man for superintendent of the Green Bay reformatory, which certainly does appear slightly inconsistent.

Mr. Bowron is an estimable gentleman, who has hosts of friends who will rejoice over his appointment, and The Sentinel congratulates him upon his preferment. But that does not change the situation for the board. What the public wants to know is why Mr. Bliss should be dropped from one institution after six years' experience on the ground that he is not "trained," and Mr. Bowron be appointed to another without the slightest claim of being "trained."

A person of hasty judgment would say that either political considerations are influencing appointments, or the board is somewhat wobbly on its road to reform. But hasty judgments are not fair. Let the gentlemen of the board be heard, and let judgment be suspended until they tell if they can, what it all means.

It is extremely doubtful if the board has anything to offer that will satisfy either the public or the Sentinel. The incompetency of Mr. Bliss appeared to develop very rapidly in the minds of the board during the last four weeks of his administration.

In an interview with Mr. Bishop, the day before Mr. Bliss was removed, the flat question was asked him: "What would have been the attitude of the board if any other man besides Mr. La Follette had been elected governor?"

His answer was: That would have depended entirely upon Mr. Bliss. To which that gentleman replied: "That's all there is to it. The 'Gazette' would have been in sympathy with the measures of any other administration, and therefore in line politically."

That's all there is to it, a simple game of politics. The "Board" like the ostrich, is too large to hide simply by sticking its head in a hole.

THE CANADIAN PARLIAMENT

The Canadian parliament has just closed a quiet session as the government majority was fifty which allowed the conservative opposition very little to say in the enacting of laws. Among the important measures passed was the establishment of a mint at Ottawa where all the Canadian money will be coined instead of in London as at present.

This move is bound to be gratifying to all Canadians. The government also voted to increase their contribution toward the building of the Pacific cable to \$2,750,000. The remainder being paid by England and her colonies directly benefited.

For the third time the Canadian parliament has turned down the Bell Telephone Co. in their request to be allowed to advance telephone rates.

The attitude of the Canadians towards the home government in its war has been one of helpful patriotism and sympathy.

SOUTHERN CONVENTIONS.

Two constitutional conventions in the South are wrestling with the question of the negro voter. The Virginia delegates find the task not entirely easy or to their liking; many of the delegates side with Governor Tyler in the opinion that the question of race ought not to enter into the consideration, and yet we believe the prominent idea in calling these conventions is to regulate the rapidly increasing negro vote. We in the North cannot or do not give the Southern whites the sympathy they

deserve, for we are apt to form our opinion of the southern negro who is a different individual altogether.

While we are not all in sympathy with the purposes of the Virginia and Alabama conventions in attempting to regulate suffrage so as to cut out a large number of negroes from voting yet we who do not live in the South do not realize the tremendous power the negroes could exert under the present laws if they were politicians. What the entire country needs is better educated voters and when such requirements are demanded instead of the "grandfather" requirements we shall be more in accord with southern sentiment.

ART AND LABOR.

Labor has long occupied the thought of man, for it is the means whereby his living and all of his worldly possessions are obtained, but art has too often been considered a non-essential, a delight to some people, but unnecessary to good living.

A society has been formed in Chicago for the purpose of combining art and labor. It is called the "Modern Arts and Crafts Society." Its aims and purposes are intensely practical, although some difficulty is experienced in attracting the attention of the ordinary workman to the benefits they can derive from joining the society.

"Labor has been called necessary energy; art, free energy."

When the artist joins hands with the craftsman he must expect to give up some of his free imaginative activity, and the laborer must possess himself of ideals; he must put into his work an aesthetic value as well as a commercial one.

The result will inevitably be the instilling of more joy and pleasure into the work of the craftsman, and immediate financial reward to both.

The object of the Chicago Arts and Crafts Society, formed at Hull House, is to cultivate in workmen the sense of beauty, so that an article of every day use, will be a thing of grace and beauty, as well as of practical utility.

Second, to influence the present idea towards manual training and technology. This idea is made prominent in a few of our manual training schools today, who encourage the pupil to make his own designs and recognize artistic ability in the making of lessons at the bench, lathe or forge.

Thirdly, to recognize and encourage handicraft among its members, for its educational value, as well as its utility. Here again, the manual idea prevails. Crafts are not simply taught as a means to a livelihood, but as a severe and useful mental and moral training for men whose position makes its possession entirely unnecessary from an utility standpoint.

Again, the society plans to better the conditions of factories and the workmen therein. To accomplish these objects a workshop is being prepared where tools and materials are provided for the training and education of all who care to combine the artistic and useful. This movement means the establishment of life and industry on a basis of art, which is ideal.

A better disciplined set of henchmen has rarely been seen than Matt Quay's coterie of legislators in Pennsylvania and Sen. Quay's son is interested in street railway too.

If the trial of Dr. Herion has brought to light a bigoted reprobate; it has also called our attention to a shining example of untiring loyal devoted womanhood.

STATE PRESS COMMENT

Fond du Lac Reporter, Dem.: The successor to Mr. Bliss will not be an editor who has dared to place the old machine before the present state administration.

Whitewater Register, Rep.: It seems to be determined that H. F. Bliss, superintendent of the state institution for the blind at Janesville is to be removed. Mr. Bliss is an ardent Republican and never hesitates to speak his sentiments; and in the recent differences within the party his paper, the Janesville Gazette, has favored the Stalwart side of the controversy. But we have never supposed that this would be accounted a proper cause for his removal, for he has been acknowledged to be an ideal man for the difficult position. Such an office is not easy to fill, but Mr. Bliss and his excellent wife won the love and confidence of the pupils at the outset and have retained them ever since. When the helpless children in their charge were told that they were liable to lose their friends and benefactors they showed the most distressing grief, and their trouble sought to prevail upon the powers that be to reconsider their purpose. A delegation of the pupils accompanied by their band went to Madison to present their appeal to the governor, but were not encouraged by their reception. We heartily wish, for the good of the school—not for Mr. Bliss, he can take care of himself anywhere—that there might be no change in the superintendency of the institution.

Waukesha Dispatch, Dem.: Gov. La Follette is charged with contemplating the removal of some of those now in charge of the state's charitable institutions, to make places for his personal followers, but he will forfeit the good opinion of the people of the state and aid in his own undoing if he persists in his present purpose. These positions are generally

regarded as above the petty spoils of politics and retribution will swiftly follow disregard of this respect. Gov. La Follette's emergency is perhaps unusual but will not excuse the outrage contemplated.

Delavan Enterprise; The old soldiers are kicking against Governor La Follette, on account of his discharging so many old soldiers from the capital and putting young men in their places. Both Governors Upham and Scofield always gave old soldiers the preference whenever they could, and for this reason were extremely popular with the 85,000 or more veterans in the state. Since Governor La Follette has come into office, he has discharged fourteen old veterans employed in the capitol, and naturally their comrades are feeling dissatisfied.

TAKE HENRY JONES TO THE ASYLUM

Insane Janesville Boy Grows Violent On the Train Accompanied by Sheriff Maltress.

Harry Jones, the twenty-year-old son of Noah Jones of 254 Western avenue went hopelessly insane yesterday and was taken to Mendota by Sheriff Maltress. Jones has been subject to these attacks since he was seven years old, but has never been considered dangerous. Yesterday he was taken with an attack more violent than the others and his parents could do nothing with him.

He was examined by a local board of physicians and pronounced insane and recommended that he be taken to Mendota. Sheriff Maltress started for the asylum with him and had no trouble as far as Madison. Here he took him in a hack and started for the asylum. After going a short distance Jones complained of the hack being close and wanted to get out. He was restrained by the sheriff and a rough and tumble fight resulted. The door flew open and the sheriff and his prisoner fell out. The sheriff called some laborers to his aid and succeeded in getting Jones back into the hack, but not before he had broken the most of the windows and making a wreck of the outfit generally. He was at last landed in the asylum and the sheriff returned home glad to be rid of his troublesome charge.

TWONEGROES HAD A NARROW ESCAPE

BOLT OF LIGHTNING KNOCKS THEM SENSELESS.

The Injured Parties Were Standing in the Lunch Room at Crystal Springs Park When the Current Ran in Over the Telephone Wire—Two Boys Also Struck.

Two negroes named Green, members of Paul Gehrke's band had a narrow escape from being killed by a bolt of lightning, shortly before five o'clock at the Crystal Springs park yesterday afternoon. When the storm that went north of the city yesterday afternoon began to look threatening, the people still left at the park went into the buildings for protection. The Greens and several other people were in the lunch room standing close to where the telephone wire comes into the building. The lightning struck one of the large oaks near the building and ran down the telephone wire into the room where the people were standing. The wire was disconnected and when the lightning reached the end it seemed to go in all directions. The room was filled with a blinding light and the Green boys who were the nearest to the phone seemed to drop as if they were shot.

Arnold Tift was standing close to the two negroes and close to where the bolt came through the side of building. Shivers flew in all directions and one side of his coat was covered with them. He saw the Greens drop and caught one of them as they fell.

Restoratives were immediately given them and efforts made to get up a circulation. After about half an hour's hard work they regained their senses and were not much the worse for the shock.

Friday afternoon Anson Pope and his two young sons, who reside near the entrance to Crystal Springs on the Indian Ford road were working on their tobacco beds when the storm that passed north of the city, about six o'clock broke.

Mr. Pope and the two boys started for their house, Pope driving the wagon along the road and the boys taking a short cut across the fields. The boys were getting under a fence when the lightning struck a short distance away, prostrating both of them. One of them was badly shocked, but the other came out of it quickly and helped to get his brother to the house.

One of the boy's limbs was drawn up against his body by the contraction of the muscles caused by the shock. Dr. R. W. Edden was called and after considerable hard work succeeded in getting up a circulation and getting the limb back into its normal condition. Quite a number of people have been shocked by lightning in this vicinity since the warm weather set in but as yet no fatalities have resulted from the shocks. The storm last evening was especially severe north and northwest of this city. The rain came down in torrents and numbers of telephone and telegraph wires were wrecked by wind and lightning.

WEDDING BELLS AT ST. MARY'S

Ceremony Today Uniting in Marriage Katherine Peterson and Arthur Metzinger.

Quietly and without ostentation there was solemnized at St. Mary's church this morning at six o'clock the sacred marriage service which united the future lives of Miss Katherine Peterson and Arthur Metzinger, both of this city. Rev. Father W. A. Goebel celebrated the nuptial mass and bestowed the blessing of the church on the young couple in the presence of a small company of relatives and intimate friends. There were no bride attendants.

After the ceremony an elaborate wedding breakfast was served at the home of the bride's sister, Mrs. Thomas Courtney, 365 South River street, the guests being limited to the immediate relatives of the bride and groom. The bride is an orphan and has made her home with her sister for some time. The groom is a nephew of Mrs. F. M. Marzluff and of George Hans of this city and has been employe at the Marzluff shoe factory.

He is a cutter by trade and is now in the employ of John Foster of Beloit. Mr. and Mrs. Metzinger left for their future home in that city this afternoon at 2:10 o'clock. They will have the best wishes of their many friends for a bright and prosperous future.

Caldwell-Bunting Wedding
Nashville, Tenn., papers contain an extended account of the wedding of Miss Elsie Caldwell to Daniel Carter Bunting which took place on the lawn at Longview, the home of the bride's parents, Mr. and Mrs. Jas. E. Caldwell. Both young people are leaders in the first society of Nashville and the wedding was attended by a large number of guests and invited friends. Miss Caldwell had many friends in this city, having spent the summer here several years ago as the guest of her cousin, Mrs. Henry D. Sloan.

Ensign Hemming was ordained priest, yesterday, in St. Francis seminary by Archbishop Katerer of Milwaukee. He will celebrate his first mass tomorrow morning at St. Patrick's church at 10:30 instead of at 10 o'clock as was heretofore announced.

Roy E. Wisner, who has been in ill health for some time past, leaves tomorrow morning for Colorado, in the hopes of deriving great benefit from the famed atmosphere of that state. During his absence his position in the office of the Wisconsin Carriage company will be taken by his cousin, Arthur Granger.

The statement that the proceeds from the sale of the Lewis Herring property went to the school fund, was a little misleading. The proceeds are turned over to the state treasurer, who holds them and advertises for five years for claimants. After that time, if no claimant appears, it goes into the state school fund.

Marriage licenses were issued today to Joseph B. Tofods of Muskegon, Mich., and Ida Linniman of Janesville; James Wall and Catherine Curry of Rockton; James Carl Peon of Monroe and Mary Josephine Jones of Clinton; Lynn D. Williams of Janesville and Minnie Ullius of the town of LePrarie.

At the convention of dancing masters held this past week at Toronto Canada, one of the best features is said to have been a description of the gavotte "Die Kaiserin" by F. W. Kehl, of Madison, Wis., and well known in this city, where he has conducted large dancing classes for the past two winters. The dancing masters were unanimous in the approval of the gavotte described by Mr. Kehl. It is a court dance, and exceedingly pretty.

Entertained Friends.
Mrs. J. P. Baker and her daughter Mrs. Harry McNamara, entertained a company of ladies at a charming five o'clock tea Saturday evening. Six six handed euchre was played, the prizes being won by Mrs. Charles Postwick and Mrs. Claire Capelle.

The young ladies who assisted the hostesses by waiting on the tables were Misses Louise Merrill, Margery Mount, Mary Stevens, Ella Sutherland, Elizabeth McKoy, Alice Harper and Winnifield Fifeid.

WILL NOT JOIN THE PLOW TRUST

Business of the Janesville Machine Co. Has Been Highly Satisfactory During Past Year.

The Janesville Machine company will not join the plow trust. This statement was made by a number of the directors of that concern this morning. During the last few months the promoters of the trust have interviewed the directors of the company and have met with a firm refusal on their part to enter into any combine. They are satisfied with the business of the company at present and could not see where they would be benefitted by entering the trust. On the other hand it is almost certain that he trust would close the works, which would work an irreparable injury to Janesville. A great many men would be thrown out of employment and would have a hard time securing new positions. A majority of the employees of the company are property owners in this city and dependent upon the works for a living.

The business of the company the past year has been highly satisfactory to the stockholders and the outlook for the coming season is equally as good and there would be no good reason why they should enter the combine.

FIGHT FOR PLACE ON GOLF TEAM

The Play for Position Creates Interest Among the Players—Grounds Now in First Class Shape

The fight for position on the team of the Mississippi Golf club still goes on and will continue to furnish competition for the club members for some time to come. The play for position creates interest among the players and keeps them in form for the coming tournament. The team is now composed of twenty players, who are putting up a good game and there are several more members who did not put up a score at first that could get well up the line if they could enter the competition.

There has been a number of changes in the positions of the team members this week and they now stand as follows:

The new addition to the club house to be used as a kitchen is all enclosed and nothing has been added to the building that improves its looks from the road as much as this addition. The lower part of the addition will be partitioned off and half of it used for a shower bath which will be a great luxury to the players after finishing up a match in a hot day.

The grounds are now in first-class shape with the exception of some of the putting greens which are very much in need of rain. Several good soaking rains would put the grounds in elegant shape.

The club members are doing in their power to make the tournament next month a success and hope to have everything in perfect shape to handle the event.

BASE BALL AT EVANSVILLE.

Chicago Unions and Beloit College, Wednesday, June 19.

What promises to be one of the best ball games in this vicinity so far this year will be played at Evansville Wednesday, June 19. The Beloit College nine, who stand well at the top among the western teams, and the famous Chicago Unions, who play havoc with the scores of all competitors, will occupy the diamond. The Unions are a colored team who play ball like professionals, but with Adkins and Merrill of Beloit, as the opposing battery, it is doubtful if the Unions have a walkaway. Beloit has had but one or two defeats this year, and are playing terrific ball. Janesville people who wish to see the game can leave here at 11:20 a. m. and return home at 7:15 p. m. Game will be called at 2:30 o'clock p. m.

MANNERS READY TO PLEAD GUILTY

Country Lad Who Stole \$300 and Fled to Chicago Promptly Brought to Line.

George Manners, a farm hand in the employ of George Bahr, who rents a farm from Mrs. Harriet Townsend in the town of Magnolia took \$300, belonging to Mrs. Townsend on Friday afternoon and shipped. Friday afternoon he entered the room occupied by Mrs. Townsend, who resides with Bahr and took the \$300 which was in a bureau drawer. He then went to Evansville and after buying a suit of clothes took the evening train for Chicago.

Saturday he filled up on Chicago booze and while under the influence flashed a big roll of money. The police at Cottage Grove avenue police station spotted Manners and arrested him. After being in jail a short time he confessed to stealing \$300 from Mrs. Townsend.

The police telegraphed the operator at Footville giving him the facts and he informed Dell Townsend, a son of Mrs. Townsend, who happened to be in Footville. The young man hastened to his mother's home and informed her of the theft. She went to the bureau and for the first time discovered her loss. She came to this city with her son and got a warrant for Manners' arrest.

Sheriff Maltress left on the 5:10 train on Saturday afternoon over the Janesville & Southeastern for Chicago where he secured his man and returned on the 12:15 over the Northwestern the same night.

Manners till had about \$250 of the money. He is about twenty-five years of age and claims that this is his first offense.

Manners was brought before the municipal court this morning and waived examination, for committing the robbery. His case was adjourned until June 24 at 10 a. m. In default of \$800 bail he went to jail.

Manners admits his guilt and is ready to plead guilty to the information against him and take his punishment. It is probable that the district attorney will file the information against him before the day set for his trial and he will be allowed to plead at once.

WOODMEN MOURN FOR THEIR DEAD

Continued From Page 1.

ple have sometimes been unmindful of their philosophers and their Socrates and other great men have walked the streets poorly clad and in need of food.

The time has come when the people do not begrudge the money given those who enrich our minds.

Great service has been done along this line and it has resulted in universal education, universal religion and freedom. When Luther released the testament to men in their own tongue he did more for universal education than anyone has ever done but Christ. It is dangerous to give the Bible to man unless you want him to think and be free.

Life Is Made Sweeter

There is a third way in which man can be of service to man. There is the spirit to be purified and freed. There is bondage that manifests itself in shackles, there is the bondage of ignorance but the greatest bondage of all is the one that brings man to the servitude of sin. The world is better because men and women are banding themselves together in organizations which exemplify in their lives the brotherhood of man. Life is being made sweeter because men are willing to acknowledge by lips and deeds their duty to their fellow man and the man who loves the great Father most will sacrifice the most for his brother.

The measure of service cannot be the same for all but must depend on two things, ability and opportunity. To one man God has given ability to serve his fellow man in bodily ways, to another to minister intellectual or spiritual needs and each must work in his own way, but whatever his talents every man should serve to his full capacity. There is always the opportunity to serve mankind in every way. Humanity's needs are crying out with thousands of tongues. The greatest manifestation man can give of the great brotherhood of man is by accepting the brotherhood of one who won his spurs as a brother of Jesus Christ, the elder brother who lived not only for his own advancement but to serve others.

At the Baptist Church.

At the Baptist church yesterday Children's Day was observed, the service having been postponed for a week. The church was handsomely decorated and the services were very interesting but one of the things most appreciated by the congregation was the surprise which lay waiting in the church calendars. From the front page of the calendar the sweet face of little William Wyman Kempton, of Eau Claire, daughter of the late Rev. Arthur C. Kempton, pastor of the church, smiled a friendly greeting, wakening tender memories and having a beautifying influence on the entire service.

The children of the Sunday school had charge of the morning service and one of the interesting features was the graduating exercises conducted by Mrs. A. P. Lovejoy, teacher of the primary department. Ten little people were graduated from the primary department and the exercises consisted of their answering in concert the questions which were asked by Mrs. Lovejoy.

The graduates were Marguerite Palmer, Sidney Bailey, Wendell Fife, Mabel Hans, Mabel Collingsworth, Rexford Pierce, Rhoda Sherman, Lorene Eller, Hazel Palmer and Elmer Hayes.

The Children's Chorus.

The Children's chorus sang some selections splendidly, Sadie Granger singing the solo part for one number sweetly, and the primary department pleased the congregation with two songs. Lu'u McDonald sang sweetly "With Thee, O My God," by Margaret Jones Adams, formerly of this city, and James Roberts' solo, "I Think When I Read That Sweet Story of Old," was also a treat. The ladies' trio sang an appropriate and exquisite selection, "Before the Infant Jesus," by Baumbach.

There were excellent recitations by Lucy Granger and six little girls, by a class of thirteen children and by Roger Cunningham, Bel'e Campbell, and Beth McDonald. The pastor, Rev. R. M. Vaughan, preached a beautiful and appropriate sermon on "How the Lilies Grow."

In the evening there was a baptismal service at the close of the regular service, at which the pastor preached the second in his series of sermons, "Crises in Great Lives." His subject was "Samuel at Shiloh."

NEWS AND GOSSIP FROM LINE CITY

Beloit, June 17.—Beloit will celebrate the Fourth of July. A mass meeting for the purpose was held on Friday night. Committees were appointed to go ahead with the work and already nearly \$600 has been subscribed for the celebration, which promises to eclipse anything ever attempted in Beloit.

The thirty-second annual graduation exercises of the Beloit high school were held Friday evening at the first Congregational church. Music was furnished by the city band. Twenty-six scholars received diplomas.

Beloit camp 348 and Eclipse camp 1,907 and the R. N. A. camps Saturday night fittingly observed Woodmen's memorial day. A parade of several hundred Woodmen and Royal Neighbors, headed by the Beloit band went to the cemetery where an appropriate program was carried out and the graves of the dead were prettily decorated. J. B. Dow delivered an interesting address.

The annual academy, graduation exercises were held on Saturday afternoon at Scoville hall and were largely attended.

The fifty-fourth annual commencement exercises of Beloit college began Sunday and will continue until Wednesday noon. Sunday morning Prof. H. M. Scott of Chicago gave an address before the Christian association of the college at the First M. E. church in the afternoon the annual baccalaureate sermon was delivered by President Eaton at the college chapel. Both meetings were largely attended. The week will be a busy one.

The senior class of the college returned Saturday night from their week's vacation at Pewaukee lake. Mrs. McGuire, a sister of Rev. M. J. Ward, pastor of St. Thomas church died Sunday morning of consumption. She formerly resided in St. Louis coming to St. Paul about a month ago. The funeral service will occur on Tuesday morning in Beloit and the remains will be interred at their old home near Fond du Lac.

Daniel Higgins a well known mason and contractor passed away Friday after a few hours' illness of the hemorrhage of the lungs. The funeral was held on Sunday afternoon.

JUDGES FOR THE COURTS.

Eleven Americans Among Those Appointed—Captain Ahern of Philippine Forestry Bureau Issues Circular—Timber Cut on State Lands Under License.

Manila, June 17.—Colonels' Infant and Guivara, representatives of General Cailles, today signed the name of their principal to an agreement to surrender. Under the terms of this agreement General Cailles is to assemble his men at Santa Cruz, Laguna province, as quickly as possible, and there to surrender himself and his command to the American authorities. The exact number of his force is uncertain, but there will probably be more than 500. Seventeen judges have been appointed to the courts of first instance. Council of Business Men.

The chief of the forestry bureau of the Philippines, Captain Ahern, has just issued a circular which is applicable to those who are considering business ventures other than lumbering in the archipelago. The United States attorney-general, it should be borne in mind, has construed that the prohibitions on the amendments to the Spooner act do not apply to timber cutting on government lands. In part, the circular is as follows: "At present there are no laws under which timber lands can be purchased. There is some timber land held by private parties, but it is very limited in extent and, as a rule, is not on the market. The custom for lumbermen in these islands is to apply for a license to cut timber on state land in a certain province. This license, granted free of charge, is for a term of one year, and can be renewed. As a rule applicants can obtain as large a tract as they can conveniently exploit. There are many large forest districts where no licenses have been applied for and which could be profitably handled if labor could be obtained. The felled timber is measured and appraised as it leaves the forest by a forestry official. The valuation of state timber is made by the cubic foot."

Many Give Up Arms.

Washington, June 17.—War Department figures just made public show that up to Jan. 1, 1901, the total number of insurgents captured or surrendered was 21,497, with 5,048 rifles, fifty-six field pieces, something over 2,000 shells and balls, 573,000 rounds of ammunition and nineteen tons of powder. From Jan. 1 to April 17 the number of captured includes 247 officers, 2,459 men; the number surrendered was 850 officers, 6,492 men; making a total of 1,067 officers, 8,951 men, or a grand total up to date of 31,415 insurgents captured.

Kentucky Has Oil Craze.

Louisville, Ky., June 17.—The oil craze has struck Kentucky in earnest and over thirty companies have been formed within the last thirty days to prospect in Wayne county. One well producing 500 barrels of oil a day has been struck and the total output from this district amounts to about 1,200 barrels a day. Fifty more wells are being sunk. The oil is of the green variety and resembles in color and quality the oil of Pennsylvania.

Ribbon of Eels Seen.

New York, June 17.—A remarkable phenomenon was observed by persons living near the Passaic river, in Belleville and Avondale, N. J. For five miles along each bank of the river there was a continuous ribbon of young eels, each about seven inches long. So close were they packed that many were forced on the land. The eels stayed along the shore for several hours and then went to the center of the stream.

Severe Hurt in a Fall.

Chicago, June 17.—In the midst of a drill by school children, accompanied by the patriotic strains of a band, a big grand stand erected of rotten timbers at a cost of \$50, which had never been inspected by city officials, collapsed at the grounds of the Chicago Normal school, West Sixty-eighth street and Normal parkway, injuring scores of spectators. All will recover.

LAWYERS BEWARE OF WOMAN'S TEARS

Instances Where the Quiver of a Lip
Has Turned Cross-Examina-
tion in Her Favor.

No less an authority than Luther Laffin Mills once laid down the rule, "Never cross-examine a woman!" and to this others have added the advice, "Never assail a woman in court if it can be avoided." As a reason for this they give "tears" or "the quivering lip." Legal history is full of instances where the quiver of a lip has turned the most masterly cross-examination against the examiner, and a sob will wreck a case so well prepared that there seems to be no doubt of its outcome.

His Costly Mistake.

"I once prosecuted a woman for murder," said one of the leading lawyers of the city in discussing the matter. "It was practically a clear case, but I made the mistake of putting her through a severe cross-examination. She was a pretty woman, and after letting two tears roll down her cheek she faints. I don't know whether it was premeditated or not, but that is quite immaterial—the case was lost from that moment and I had only to look at the jurors to realize it. On another occasion I had a woman on the stand who was so palpably perverting the facts that I was sure I could tangle her up in five minutes, but I had had my lesson and I let her go without a question. I won that case. Of course that is not a good rule to go by in all circumstances, but it is well to remember that the innate chivalry of man is almost invariably aroused by woman in distress, and the rules of evidence don't cut much figure when she weeps. A lawyer must be his own judge of what is necessary, but that is a chance he always takes when he assails a woman either directly or indirectly, no matter how just his cause may be."

"Remember the Pollard-Breckenridge case that was such a sensation a few years ago," put in another lawyer. "Miss Pollard was cross-examined by one of the ablest lawyers in the country and she made more out of the tilt than he did. A woman is quicker than a man and she will get in little points not exactly allowable, but that have telling effect. That's what Miss Pollard did, and she easily had the better of the encounter when she broke down and wept, and some of the people in the court room wept with her. As a result the cross-examination was about the most effective part of her testimony."

Her Quivering Lip Counts.

But it isn't necessary to weep. The quiver of a lip will do the work sometimes. You see, the very circumstances are such as to create sympathy. Here is a woman in a court of law, unfamiliar with its methods and apparently at a great disadvantage. When a lawyer attacks her either by cross-examination or by direct charge it looks unfair, for she is ostensibly defenseless. But let me tell you a woman never is defenseless. The fact that she seems to be so is in itself a weapon to her hand, and she knows how to use it. A woman will adapt herself to surroundings quicker than a man, her perceptive faculties are more delicate and more alert, and she knows intuitively what to do. I do not mean to say that she deliberately acts a part, but she just naturally does the right thing. When you see a tilt between a woman and a lawyer don't waste your sympathy on the woman—give it to the lawyer. He's the one who needs it."

His Wariness Saves Him.

"Watch the woman," was the suggestion of the third lawyer. "It is absolutely necessary to speak plainly of a woman sometimes or to question her with almost brutal directness. Even then she may be too quick for you, but there is a chance to get out without damage. I had a woman on the stand once and was just getting to the really telling point when I saw unmistakable signs of what was coming. My next question I felt sure would land her, for I had her in a corner, but I dared not press my advantage for fear I would lose what little I had gained. 'That's all,' I said quickly, and you never saw a more surprised woman in your life. She would have fainted or wept in another minute, and the shock was so great that she looked almost resentful as she left the stand. In that instance I think I made a good point, for my consideration for her was apparent to the jury, and not knowing my cold-blooded reason, the jurors rather admired me for it."

MODES FOR WOMEN.

Dressmakers very frequently select the corselet skirt for traveling, outing, and beach promenade costumes for morning uses, and when worn over a trim shirt waist of China silk, dimity or other fabric, the effect is chic and pretty on a fairly slender figure, the corselet top doing away with all the details of a waist of the ordinary kind that calls for careful fastening, belting and adjusting. A short Eton jacket is the almost invariable finish for these skirts, the most novel models being made with vest front sections

and an Aiglon collar. This jacket always matches the fabric used for the skirt, which as a rule, is always cut with five shapely gores, and is made variously with suspender tops, with simple pointed corselet effect, or with the front of the girdle portion slashed and laced across with silk cords.

The newest girdles sent out by noted city designers are very deep, and have a decided dip in front. They are draped but are supplied with a careful foundation, which gives them perfect symmetry. When worn with boleros or Eton jackets, which end above the waist line, these girdles give just the requisite length to the figure. In former seasons both of these styles have failed to prove becoming to many women who adopted them on account of the short waisted effect.

Rockefeller in Chicago.

Chicago, June 17.—John D. Rockefeller, the founder of the University of Chicago, and his wife, arrived at the university grounds in company with President Harper to participate in the decennial birthday celebration of the institution. It is the first visit Mr. Rockefeller has paid the university since the quinquennial celebration five years ago. Since then his princely gifts have added many new buildings, departments and improvements to the educational institution. He has never seen the four Hull biological laboratories, Green hall or the addition to Foster hall.

Maya Indian Leader Killed.

Oaxaca, Mex., June 17.—General Prudencio Cab, who has been in command of the Maya Indians in their present revolt against the government, is dead. He was wounded in an engagement near San Cruz several weeks ago and died from the lack of proper medical attention. The hostile Mayas now number about 15,000 braves. They occupy the towns of Sabache and Chankia. Many of the women and children have taken refuge in British Honduras.

Rain or Shine,

The station agent is on duty. On his exact communication of train orders depends thousands of lives, and millions of dollars in property, each day. In his haste he runs out in the rain or the snow, helpless and unprotected. Then comes the sequel—bronchitis, or some other disease of the respiratory organs. The most effective remedy for bronchial or pulmonary disease is Doctor Pierce's Golden Medical Discovery. Almost all remedies prescribed for such diseases contain opium or some narcotic which soothes by stupefaction. "Golden Medical Discovery" contains neither narcotics nor alcohol. It stops coughs by curing their cause. It heals weak lungs, builds up wasted tissues, and promotes the health of every organ of the body.

"I am a railroad agent," writes I. B. Staples, Esq., of Barclay, Osage County, Kans., and four years ago my work kept me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep-seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend advised me to try Dr. Pierce's medicine. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking four bottles my cough was entirely gone. I have found no necessity for seeking another climate."

Dr. Pierce's Pleasant Pellets regulate the stomach, liver and bowels.

WANT SPECIAL CAR FROM JANESVILLE

Local Endeavor People Make Arrangements to Attend the Cincinnati Convention—Officers Elected.

The joint rally social which was to have been held by the Christian Endeavor societies at the Congregational church Saturday evening failed to attract enough people to make it a success and the program was declared off. As the main object to arouse interest in the coming international convention which opens at Cincinnati, Ohio, July 7, it was decided to have A. E. Matheson visit the various societies at their Sunday evening meetings rather than make another attempt at a union meeting.

Mr. Matheson carried out the plan last evening making a brief and concise talk before each of the three local societies. The management hopes to secure enough convention delegates and visitors to send a special train and is especially desirous of procuring a special sleeper direct from this city which can be done by engaging fifteen double berths. Each society will send two delegates, Miss Fannie Jackson and A. E. Matheson, who are state officers, will go among the representatives from the state society, and quite a number of young people in each of the three local societies are planning to attend as visitors so there seems to be no doubt of being able to have the car from Janesville. The necessary expense of the trip will be between twenty and twenty-five dollars.

At their meeting last evening the Christian Endeavor society of the Congregational church elected the following officers for the next six months:

President—Miss Ada Fenton.
Vice President—Arthur Wheeler.
Secretary—Oscar Halverson.
Treasurer—Miss Mattie Spoon.
Corresponding secretary—Miss Alice Estes.
Pianist—Miss Edna Spoon.
Prayer Meeting Committee—Misses Edith Echlin, Nellie Butts and Nettie Harrington and Herbert Eggleston and Prof. George Brace.
Lookout Committee—Oscar Halverson, chairman.
Music Committee—Miss Grace Puhler, chairman.
Flower Committee—Miss Cora Harrison, chairman.
Social Committee—Miss Coral Bonesteel, chairman.
Missionary committee—Miss Beth Miller, chairman.
Sunday School Committee—Miss Alice Fenton, chairman.
Whatsoever Committee—Prof. Geo. M. Brace, chairman.

Miss Ada Fenton was elected as one of the society's delegates to the Cincinnati convention. The election of the second delegate was deferred until next week.

Funeral of Miss Moon
Many sorrowing friends gathered at the home of the late Miss Desdemona Moon, 8 Milton avenue, this afternoon at 4 o'clock to pay the last tribute of loving respect to the memory of one who had been so universally esteemed. A beautiful and appropriate song service was rendered by Mrs. Christine Hawley, Mrs. Hattie Hyzer, E. O. Smith and George Robinson. Rev. Arthur H. Barington the rector of Trinity church, conducted the sad rites and the interment took place at Oak Hill cemetery. The pall bearers were Henry Rogers, William Ruger, George S. Parker, R. M. Bostwick, Michael Bradley and Emil Engebretsen.

MANY ATTEND EBER FUNERAL

Services Over the Remains of the Dead Railway Edgineer Held at Baraboo Yesterday.

Funeral services for the late Charles Eber of this city were held at Baraboo, his former home, yesterday, and were largely attended, large delegations being present from Milwaukee, Madison and this city. There were present also many sorrowing friends from Baraboo where the deceased long resided and was highly esteemed. The floral tributes were numerous and exceptionally handsome, among the number being a large Gates Ajar and a spray of carnations from the neighbors of Mr. Eber's family in this city, Mrs. Alex. Helms having taken charge of securing this kindly expression of remembrance from Janesville friends.

Among those present at the funeral were many railroad men with whom Mr. Eber had been very popular and by whom he was admired and respected. Those from this city who attended the funeral were Messrs. and Mesdames P. C. Cobeen, Alex. Helms, Carl Pabst, George Devins, Thomas Erickson, George Dopp and Joseph Maher, Mrs. George Rood, Miss Martha McLean and Messrs. Foster, Kohler and William Kammer.

Plans a Union of Housemaids.
Chicago, June 17.—Miss Sophie Becker announced her intention to the Chicago Federation of Labor to organize a union of housemaids. The union will announce a regular scale of wages, from which no employers will be allowed to deviate. An eight-hour day will be declared in vogue, with extra pay for holidays and overtime. The number of afternoons which each servant girl may have for recreation each week also will be stipulated.

THE FIRE RECORD.

Leap Into Lake to Escape Flames.
Belleville, Ont., June 15.—The steamer Hero of the Belleville & Kingston line was burned to the water's edge at 1 a. m., as she lay at the company's wharf, having arrived about midnight. All hands and several passengers were in bed and awoke to find the boat in flames. All had narrow escapes, some jumping into the river to escape the flames.

Steamship's Cargo Burns.
New Orleans, June 17.—The steamship Atlas, from Progresso, Mexico, loaded with sisal grass, took fire at the quarantine station and her cargo was almost consumed before the flames were extinguished.

\$175,000 Fire at Decherd, Tenn.
Decherd, Tenn., June 17.—The east side of Winchester street burned. A number of business houses were destroyed, entailing a loss estimated at \$175,000.

LATEST LABOR NEWS.

Molders Get No Increase.
Chicago, June 17.—Representatives of the Foundrymen's association and the Iron Molder's union, who met in conference at the Sherman house, failed to reach a settlement on the wage scale and the matter was referred to the joint national arbitration board of the two organizations. The representatives of the molders presented a demand for a \$3 minimum for floor and bench hands, but the manufacturers, while ready to make some concessions, declared themselves unable to grant the scale as presented by the men.

Fines for Ten Men.
Columbia, S. C., June 17.—The Anderson county slavery cases, growing out of the contract labor system, were settled today. Ten of the eleven men indicted for conspiracy, false imprisonment and assault and battery of an aggravated nature, pleaded guilty to assault and were fined \$50 each. J. L. Fowler will stand trial on the false imprisonment charge. His plea is that men cannot be falsely imprisoned when they consent to the punishment.

Gives Increase in Wages.
Easton, Pa., June 17.—The Lehigh Valley railroad employees in this vicinity have received their May wages. Every man employed in the shops and at cleaning and inspecting cars learned for the first time that his wages had been increased from 15 to 30 per cent. The increase dates from May 12. The company officials here say the increase affects all shopmen, car inspectors and cleaners along the entire system, 3,600 in number.

Labor Is Suspended.
St. Petersburg, June 17.—In consequence of the renewal of labor riots the dockyard authorities have decided to close the docks until order is restored.

PLANS A NEW IRELAND.

Idea Is to Locate in Southern Pacific Ocean.
New York, June 17.—A plan to rehabilitate the Irish race on some South Pacific islands is the latest news which comes from the Pacific slope to Irish patriots in this city. The news comes in the shape of a letter signed by one Joseph A. O'Donoghue of 391½ Ninth street, San Francisco, and addressed to Captain John Kirwan, who fought with Pope's army and is now in this city. Mr. O'Donoghue has four islands in view—one island for each of the four provinces of the old country, Leinster, Munster, Ulster and Connaught. In this way the descendants of the Irish kings might come into their inherited rights. Mr. O'Donoghue begins by saying that he has received a letter from a certain nation offering him a concession of a number of islands. The price, says the writer, wouldn't be large. "The islands," he continues, "are rich in furs, the climate temperate. They could become Irish, as they are not inhabited." The islands, Mr. O'Donoghue says, are "rich in seals and turtles." The soil is also rich. They are not inhabited, are unexplored, and "near a Spanish-American republic."

Rain Affects Mrs. McKinley.
Washington, June 17.—Mrs. McKinley's condition continues about the same. The rainy weather of the past three days has a depressing effect on her spirits, but there have been no unfavorable developments.

Mrs. Kennedy Is Guilty.
Kansas City, Mo., June 17.—The jury in the Kennedy murder case has brought in a verdict of guilty of murder in the second degree.

The diseases most feared are those which are inherited—handed down from generation to generation, and family to family. By far the most destructive of these is Cancer, which finds the greatest number of its victims among the children and grand-children of those whose blood was tainted with this dreadful malady. You may carry this poison in the blood for years, but as the vital powers begin to wane a slight bruise or cut, wart or mole, sore or pimple may develop into Cancer. From middle life to old age is the time when the slumbering poison is most apt to break out, a sore or ulcer often degenerating into Cancer, and Tumors become more progressive and ulcerate through the skin, the sharp, shooting pains causing the most intense suffering.

The Cancer patient naturally grows despondent as one after another the usual remedies fail, and the sore shows no sign of healing. The impurities that have been accumulating in the system, perhaps for generations, cannot be eliminated nor the poisoned blood made pure by salves, washes and plasters. The proper treatment is to purify and build up the blood, remove the cause, when the sore or ulcer heals.

Mr. J. B. Arnold, of Greenwood, S. C., writes: "A tiny ulcer came, just under the left eye. It began spreading, and grew worse rapidly, destroying the flesh as it went. As Cancer is hereditary in my family I became thoroughly alarmed, consulting the best physicians and taking many blood medicines, none of which did me any good, when one of our leading druggists advised me to try S. S. S. and by the time I had taken the second bottle the Cancer began to show signs of healing, the discharge grew gradually less and finally ceased altogether, the sore dried up and nothing remains but a slight scar. I feel that I owe my life to S. S. S."

wait until the blood is so polluted and the system so thoroughly saturated with the poison that no medicine, however efficacious, can check the progress of the disease. If there is a taint in your blood get it out at once, don't wait for some external evidence of it, the appearance of a tumor or ulcer. We have prepared a special book on Cancer which we will mail free. Our physicians are ready to help you by their advice and such direction as your case requires.
